

TRUE UNIVERSAL MONO CONCENTRATES for COLORING ENTIRE RANGE OF POLYMERS

The New Era in Plastic Coloration

True Universal Color-n-Additive MasterBatches

TRUE UNIVERSAL MONO CONCENTRATES for COLORING ENTIRE RANGE OF POLYMERS

The New Era in Plastic Coloration

NASSOLKEM TRUE UNIVERSAL MONO CONCENTRATES suits all applications & are compatible with almost all polymers from POLYOLEFIN'S to PVC including the entire range of Engineering Plastics, Resins and Rubbers.

NASSOLKEM True Universal Color-n-Additive Concentrates are completely Non-Dusting, Free Flowing, Highly Concentrated Pigment Preparations in granule form ideally suited for Polymer Processors, MasterBatch Producers, Fiber extruders, Film extruders, Injection, Blow & Roto Molders wanting to use One Concentrate for multiple applications in variety of Polymers..

NASSOLKEM True Universal Mono Concentrates includes:

- a) Organic Pigment concentrates ranging from 40 to 70% pigment loading.
- b) Inorganic Pigment concentrates from 75 to 90% pigment loading.
- c) Titanium Dioxide mono concentrates upto 85% pigment loading for all applications including Fiber & Thin Films.
- d) Carbon Black concentrates upto 65% pigment loading.
- e) Innovative Pearl & Metallic mono concentrates ranging from 60 to 80% pigment loading.
- f) Fluorescent mono concentrates with temperature stability upto 260°C ranging from 60 to 80% pigment loading promising zero migration & zero plateout.
- g) Glow in Dark mono concentrates upto 90% pigment loading available in Green, Blue, Red and Yellow with highest afterglow.
- h) Specially developed High Performance Fully Transparent Solvent Dyes mono concentrates suitable for coloring Polycarbonates, SAN, Acrylic, PMMA, GPPS, MABS, ABS, HIPS, PolyAcetal, PBT etc.
- l) Additive Mono Concentrates upto 80% additive loading includes optical brighteners, UV Stabilisers, Antiblocks, Antislip, Processing Aid best suitable for MasterBatch formulators & polymer processors.

True Universal Mono Concentrates are based on proprietary functional carrier (Patented technology) offering true universal compatibility, superior dispersion & particle distribution with higher concentrations.

NASSOLKEM MANUFACTURES MAJORITY ORGANIC PIGMENTS, ADDITIVES AND SOLVENT DYES IN-HOUSE which results in quality control right from the induction stage which guarantees batch to batch consistency & superior dispersion.

NASSOLKEM True Universal Mono Concentrates & Super Concentrates find use in:

- a) Fiber Applications: Polypropylene, PET, PA6, PA66, HDPE Fibers.
- b) Film Applications: Includes Thin film & multilayer films.
- c) PP Non Woven & BOPP films.
- d) Injection molding of all types.
- e) Blow Molding of all types.
- f) Rotational (ROTO) molding (Also available in micro Pellets).
- g) Extrusions of all kind.
- h) Cable Extrusions with our Concentrates containing special Electrical grade pigments.

Our **NASSOLKEM** True Universal Mono Concentrates are suitable for coloring almost every plastic such as

HDPE	PVC (Soft and Rigid)	ABS and MABS	PA6
LDPE	PET (Polyester)	SAN	PA66
LLDPE	Polyurethanes (PUR)	Acrylic	TPE
VLDPE	PBT	GPPS	TPR
HM	PolyAcetal (POM)	HIPS	TPU
Polypropylene (PP)	Silicone	Polycarbonate	TPV
BOPP	SBR	PMMA	EVA

NASSOLKEM True Universal Mono Concentrates also includes RoHs-2002/95/EC, EN-71-3 1994 & FDA approved heavy metal free Organic and Inorganic Mono Concentrates.

We are partners with nature replicating almost its entire range of very interesting Spectrum & Shades.

We help you to tailor your needs with ideal solutions & broaden your designing options.

Kindly contact us for samples, Shade cards & requirements.

Note: This information is solely for your consideration, investigation & verification. It is not to be taken as a warranty or representation.

NASSOLKEM (P) LTD.
BULBUL MASTERBATCHES (P) LTD.

Manufacturing Sites in India:
Athal, Piparia (Silvassa), Pune, Sachin & Pandesara.

Export Office:

209, Hari Chamber,
58/64, Shahid Bhagat Singh Road,
Fort, Mumbai - 400 001 (INDIA).
Tel : +91-22-22702811/12
Fax : +91-22-22702810
Email : export@nassolkem.in
